*Personality*

*If you predominantly wear the colour burgundy it will reveal the following about your personality:*

You have a mature approach to life and can easily handle responsibility, authority and power. You have the qualities of the red personality, being strong, determined and powerful but with an elegant and refined touch, however unlike red, you think before you speak.

You have humour and love to have fun and enjoy life in an elegant and expensive manner. You live an opulent lifestyle with expensive taste. With your love of luxury and quality you do not begrudge spending money on food, drink, clothes, home and friends. You should be aware that too much indulgence can have a negative effect.

You will dress elegantly and when possible wear expensive clothes and accessories. You have an eye for detail and an appreciation for the 'finer things in life'.

*More about burgundy*

Burgundy is the colour of luxury and indulgence. The companies Cartier and Dupont use this colour for their luxurious accessories. This is the colour of a matured glass of red wine, one not to be gulped down, but to be enjoyed. The colour of mahogany in fine, tasteful decorated houses and libraries, the colour of the cover of old leather books, filled with wisdom and knowledge.
