Expression

Youthful, spontaneous, creative, mass communication, intuitive, original, New Age

Personality

If you predominantly wear the colour turquoise it will reveal the following about your personality:

You have a sparkling personality with great imagination which helps you to keep a fresh youthful appearance and approach to life. Your spontaneous nature always uplifts your environment.

You are very creative and open to new ideas and you are inspirational to others. On occasion you will speak out before you think. You are an optimistic person who can sometimes idealize in a childlike, naive manner. You are driven by your feelings and intuition and can therefore have great sympathy and empathy for others, making you a good listener and healer.

On occasions because you are sensitive and intuitive, you need a peaceful and calm environment, to reconnect with your mind and feelings. You do not like to be alone and you love your friends and family to be around you.

Your impulsive and playful nature always uplifts your environment; you can enliven and revive any situation with your bright and refreshing personality. You are very broadminded and love new ideas and concepts.

More about turquoise

Turquoise is the colour of the sea and reminds us of the playfulness of dolphins. This colour is a mixture of blue and green, the communication (blue) of the heart (green). Turquoise is about creative communication such as writing, singing, dancing, painting etc. Turquoise is also the colour of mass communication and computers, reaching the masses with your message. This colour supports the listening to your inner teacher (blue) or intuition, hearts desire (green) and then following this intuition, going with the flow (water).
